RE: Final Affirmative Determination Of Circumvention Of the Antidumping Duty Order On Glycine from the People's Republic Of China (A-570-836/A-533-975)

1. On 12/10/2012, Commerce published in the Federal Register its Final Affirmative Determination of Circumvention of the Antidumping Duty Order on Glycine from the People's Republic Of China (PRC) (A-570-836) (77 FR 73426).

2. The product covered by the antidumping duty order on glycine from the PRC is glycine, which is a free-flowing crystalline material, like salt or sugar. Glycine is produced at varying levels of purity and is used as a sweetener/taste enhancer, a buffering agent, reabsorbable amino acid, chemical intermediate, and a metal complexing agent. This order covers glycine of all purity levels. Glycine is currently classified under subheading 2922.49.4020 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under the order is dispositive.

3. The product covered by the final affirmative determination of circumvention is glycine, as described in paragraph 2, above, which is exported from India but processed using PRC-origin inputs (e.g., crude or technical-grade glycine).

4. Commerce has determined that all glycine produced and/or exported by AICO Laboratories India Ltd. and Salvi Chemical Industries Limited is circumventing the antidumping order. Accordingly, Commerce created case number A-533-975 to accommodate entries of merchandise classified with India as the country of origin for Customs purposes, but subject to the antidumping duty order on glycine from the PRC. See message number 2111305, dated 4/20/2012.

5. Therefore, for all entries of glycine from India produced and/or exported by AICO Laboratories India Ltd. or Salvi Chemical Industries Limited that entered, or were withdrawn from warehouse, for consumption, on or after 10/22/2010, CBP shall suspend liquidation of such entries, and, should require for such entries a cash deposit equal to the current rates shown below.

The following Indian producer/PRC supplier combination cash deposit rates apply effective 10/18/2012 (the date of publication of the final results of review affecting the Chinese supplier's

rates (77 FR 64100)):

Indian Producer: Salvi Chemical Industries Limited

PRC Supplier/Producer: PRC-Wide Entity

Case Number: A-533-975-001

Cash Deposit Rate: 155.89 %

If the PRC supplier is not identified, the cash deposit rate will be 155.89 percent, the rate applied to the PRC-Wide Entity.

6. Entries of glycine produced by Salvi Chemical Industries Limited and AICO Laboratories India Ltd. cannot benefit from certification and documentation requirements discussed in paragraph 6 of message 2270302 or from certification and documentation requirements that will be identified in the upcoming message that references Commerce's final scope ruling (issued 12/03/2012) on glycine from the People's Republic of China.

7. Entries of glycine referenced in paragraph 4 above, entered, or withdrawn from warehouse, for consumption on or after 10/22/2010, which are set for liquidation are to be unset immediately.

8. These instructions are to remain in effect until new instructions are sent.

9. If there are any questions by the importing public regarding this message, please contact the call center for the office of AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce at (202) 482-0984.
